Certificate

of Spandex Aluminium Sign System Products

We hereby state that ZAPP INFOSYSTEMY in Praha, represented by Mr. Vladimír Procházka, is a qualified signmaking company for Spandex Aluminium Sign System Products. These ranges are named

INSERTZ, SLATZ and SLIM SLATZ interior directory systems,
INFOPANEL exterior directory system,
MONOFORM and MONOFRAME exterior identity systems,
SCULPTURA monolith sign system,
C-FIX finger pole system,
FESTIVAL and BANNER TRACK banner display systems,
MAINFRAME / MINIFRAME rigid face signbox/trim systems,
CLICK-RAIL flexible face signbox/trim system.

The aluminium extrusions comprising the Spandex Aluminium Sign System range supplied by Spandex SyndiCUT s.r.o. are produced by companies operating quality management systems which comply with the requirements of ISO 9001 : 2000.

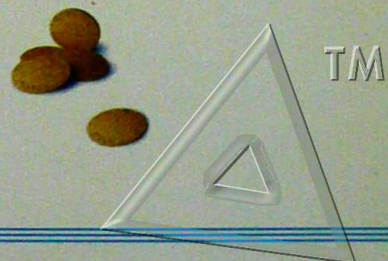

These extrusions are produced from alloy conforming to the recognised tolerances under reference 6063. The extrusions are subsequently heat treated to temper T6. The extrusions have excellent durability and corrosion resistance.

The aluminium extrusions comprising the Spandex Aluminium Sign System supplied by Spandex SyndiCUT s.r.o. are extruded to the dimensional tolerances laid out in British Standard BS EN 755-9:2001.

The aluminium extrusions comprising the 'Slatz' and 'Slim Slatz' interior directory systems supplied by Spandex SyndiCUT s.r.o. as being 'silver anodised' are naturally anodised, without the use of colouring agents, to the quality specifications laid out in British Standard BS1615:1987. The average anodised film thickness is 5 microns.

On behalf of Spandex.

Branislav Oravec
Executive director
Spandex s.r.o.
